

## Scholarships Available

Each year, as a benefit of membership, AHEAD offers members the opportunity to apply for scholarships both for yourself, and on behalf of students with disabilities at your institution.

Two categories of scholarships are available this year:

- The AHEAD Scholarship for Students with Disabilities; and
- The AHEAD Scholarship for Advanced Academic Study for AHEAD members.

The deadline for applications to be submitted is December 15, 2009, and complete details including application materials are available online at:

<http://www.ahead.org/membersarea/scholarships.php>

These scholarships are made possible through the generous support of the annual AHEAD Silent Auction and private donations. We look forward to receiving application packages in the coming month.

## Tremendous Fellowships Available

The Department of Energy (DOE) Office of Science (SC) has established the DOE Office of Science Graduate Fellowship (DOE SCGF) program to provide support for outstanding students to pursue graduate training in basic research in areas of physics, biology, chemistry, mathematics, engineering, computational sciences, and environmental sciences relevant to the Office of Science and to encourage the development of the next generation scientific and technical talent in the U.S.

Fellows will receive a \$35,000 yearly stipend for living expenses, \$10,500 per year for tuition and fees and a \$5,000 research stipend supplement for research materials and travel expenses. Fellows will be required to participate in the annual DOE SCGF Research Conference to be held each summer at a DOE national laboratory. Travel expenses and accommodations to the Conference will be provided by the DOE SCGF program.

The application deadline is November 30, 2009.

For more information about the program, eligibility, benefits and application visit
